ABOUT US

AECS is a leading training and equipment provider for the New Zealand and Australian automotive market. We deliver the latest automotive diagnostic training systems with very high level technology in both our training and equipment to the automotive industry.

The seminars we hold are practical hands-on training sessions, delivered in an easy to understand manner by our professional and qualified tutors. You will learn to use diagnostic equipment and time saving techniques. The tips and information from our seminars are current and can be immediately used in the workshop, making diagnostics easy. Bring your own equipment or use ours during seminars. Invest in your skills and knowledge with us today.

A REVIEW FROM AN ATTENDEE

“ Hands on training with the A/C equipment, learnt the key fundamentals of the system and what to look for when fault finding. ”
